

A.W.F. Specialist Maintenance Systems Ltd.

NEW PRODUCT

Flexseal Systems

Flexseal Brush Grade No.1

Flexseal Brush Grade No.2

Our popular Flexseal System is changing slightly; we have added more resins to Flexseal to make it even more flexible, easier to stir and more water displacing agents to make it the ideal repair system to most substrates even under water.

Also for ease of use we will be supplying our Flexseal No 1 Grade in 15 and 5kgs units, this can also be supplied in Aluminium to give a great finish to your roof resisting 95% of radiant energy.

Flexseal Brush Grade No2 will still be available in 25ltr units but for carriage will only be sold in quantity, this will not apply to 5kg units as they can be boxed.

Prices

Flexseal No1 Black Brush Grade 15kgs £147.67 5kgs £59.40
