

A.W.F. DUST PROOF S.P.

Product type:

Sodium silicate in solution

Product purposes:

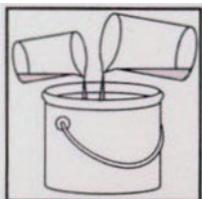

To harden concrete floors and dust-proof

The product is especially suited to heavy wear areas.

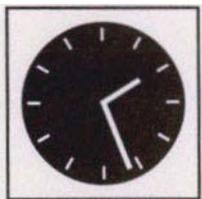

Preparation

All surfaces should be clean and free from oil and grease. The drier the concrete the better the penetration of Dust Control.
Thoroughly sweep the area to remove excess dust.

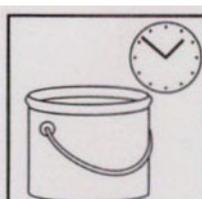

Mixing Ratio

N/A

Curing Time

Normally 8 – 12 hours

Pot Life

N/A

APPLICATION DETAILS

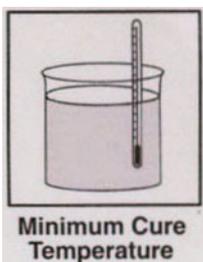

Pour Dust Proof over the surface spreading evenly with a brush or squeegee. Repeat the exercise after 18 – 24 hours.

NOTE: With extremely dusty concrete, a third coat may be necessary.

After 24 hours wash down with water to remove any surplus product.

3.5 – 5.0 square metres per litre per coat

4°C

Indefinite if kept sealed

As long as good practice is observed,
AWF Dust Proof S.P. can be safely used.
