

A.W.F. FLEXI-TAPE

All building materials degrade in time. Valley gutters crack, mineral cement sheets wear and crack, flashing works loose, downpipes crack and leak and lights leak around glazing bars.

The answer is AWF Flexi-tape, which is a specially formulated dry sealant, which has superb adhesion properties, remains flexible and is easily applied to most sound substrates providing a neat repair.

Surfaces should be clean, dry and free from contamination.

Benefits:

- Excellent adhesion to a wide range of substrates
- No mess or waste
- Remains permanently flexible
- Resists shear stress
